

## Available MAC FAME Resources

One key feature of Michigan’s Formative Assessment for Michigan Educators (FAME) program is the support provided for creating new resources useful to the Coaches and Learning Team members who are participating in the FAME program. Additional resources, useful for informing others about the FAME program and why participation can be impactful, have also been created. Members of the MAC FAME R&D Team created most of these resources or are still working on resources still not completed.

The following tables list the titles and links to the various resources that have been prepared for use in FAME. They are listed here, and URLs are provided for easy access by readers.

### A. FAME Coach and Learning Team Resources

These resources were created to assist Coaches and their Learning Teams engage in the types of professional learning intended for FAME teams.

**Audience:** FAME Coaches and Learning Team members or those who are considering whether to join FAME.

## C. Self-Reflection Guide

The goal of the *Formative Assessment Self-Reflection Guide* is to provide a resource for classroom teachers who wish to reflect and build upon their use of the FAME formative assessment process in their instruction. By using the Guide, teachers will be able to examine their instruction, reflect on areas for improvement, seek to improve their use of the formative assessment process, and observe changes in instruction over time. To assist in this self-reflection effort, stages of practice (“Stages”) are written for the FAME Components and Elements to help teachers more effectively use the formative assessment process.

**Audience:** The Guide is intended for use in both self-reflection and peer-assisted self-reflection of instruction and student learning, rather than for formal educator evaluation activities.

## G. Going Deeper Guides

These guides provide extensive information and ideas for FAME participants who wish to deepen their understanding and increase their use of selected formative assessment practices. Once teachers have read about a FAME formative assessment element, discussed it, perhaps viewed videos of its use, and reflected on their use of the element in their daily classroom instruction, these educators may be ready to consider how to deepen their use of that practice. The FAME R&D team has created several resources for these educators, and others are under development.

## I. Journal Articles

These articles were written or under development by MAC FAME research consultants along with others to describe and reflect on various aspects of the FAME program. Some are or will be sent to practitioner journals, while others will be submitted for publication in more academic-orientated journals. Each will also be uploaded to the secure FAME website.

**Audience:** Researchers and practitioners interested in the impacts of professional learning about FAME and the formative assessment process. Secondly, to FAME Coaches and Learning Team Members
